SUPPLEMENT TO
REPORT NO.

25X1X

25X1X

1. Figures for a twelve-month period on production of German firms in Thuringia (excluding Soviet AGs) were prepared by the Statistical Bureau of the Thuringian Chamber of Commerce and Industry. Those official figures are given in the attachments:
2. Attachment A gives the industrial production, valued in marks, for each quarter and for all of 1947.
3. Attachment B gives a detailed break-down of production in the mining, machine construction, metalurgical, and chemical industries. Production is expressed in quantity and in value for the entire year and for each quarter, subdivided by individual industrial products, with German code numbers.

25X1A

Comment: Because the figures were hand copied from the original document, many minor errors occurred in totals and in some individual items. Where errors were obviously those of the copyist, they have been corrected; where actual errors in addition occur, the correct totals have been given in parentheses following the figure.

This document is hereby regraded to **CONFIDENTIAL** in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
